Attachments: Timelines NovaS WHITES POINT QUARRY.doc

Hi Chris,

I'm sending you a revised schedule for the Panel process. Please discard the one I have send yesterday, this new one being more realistic.

Timelines NovaS
WHITES POINT Q...

Also, after some discussion here, I think it would be safe to add another name on the list of candidates for Panel members. The list (and CVs) that I've sent you yesterday is still valid but it would be best to add another name (bringing the list to 5 candidates instead of 4), in case more than one candidate can't make it. In that regard, can you provide us with the name of a candidate? This candidate should have some type of marine expertise, socio-economic background along with administrative skills.

After the list of potential candidates is complete, when do you think you will be able to come back to us so that we can start approaching them and seek their interest, availability, etc?

Thanks! Talk to you soon!

Francine Richard
