Subject: Re: Potential Nominees

Hi Francine,

Sorry for the delay in responding to you.

Yes, this is our list of potential candidates.

Dair know about chair / panel member?

This is what we understand the step-by-step interview process to be:

- a list of people to contact
- list of people to interview
- joint interview panel (who would be on thier panel...need corresponding people on our panel)
- agreement on chair. Minister appoints

Hi Helen

Following our conversation this morning, I thought we could at least confirm the list of "potential" panel members. Would you confirm your list of potential candidates would now read as follows:

Lesley Griffiths, Robert Fournier, Gunter Muecke, Anne Fouillard and Jill Grant. Can you tell me your preference for appointment as Chairperson and as a panel member? Also, regarding Ms Grant, can you provide me some information; I think you mentioned she was a Dalhousie University professor; can you tell me her field of expertise and how to contact her?

40100-31-15

Our list is pretty much the same: Lesley Griffiths, Robert Fournier, Gunter Muecke, Anne Fouillard. Other potential names are: Peter Duinker (School for Resource & Environmental Studies), Ray Cote (School for Resource & Environmental Studies), Scott Wood (retired recently from School for Resource & Environmental Studies). Bill Hart and Gordon Beanlands are two other names that have been referred but unfortunately, I don't have any information yet regarding these potential candidates. Would you, by any chance, know any of them?

- Kempton Quay - draft preliminary draft.

As I said earlier, I will need to contact these individual and inquire about their interest and their availibility.

** Antigonish By-pass*

Thanks Helen.

- Whites Point - panel

Francine

- East Muecke Quay comments.

- Jan Ross? - draft

- Clean Earth Technologies - Atlantic Acres

- Draft Maritime Metal ✓

Fogarty Appeal?

- ~~Atlantic Acres~~ ~~Maritime Metal~~ ~~Atlantic Acres~~ ~~Atlantic Acres~~
