Thanks, Chris. As I understand it, Helen will be back on Monday and we'll pick it up from there.

Francine: Helen MacPhail is still our contact on this project and she has been trying to get a hold of you and Jean to setup a conference call so we can all share a status update. We have a new deputy so we need to brief him prior to going to our minister on the agreement, again Helen can update you.

> Hi Chris,

> As you must have heard, the proponent has resolved its ownership issues and we are now in the process of having Minister Dion sign the federal/provincial agreement and put in place the panel review for the White's Point Quarry project.

> I really need to have confirmation of your list of candidates (see the e-mail below) and their resumes or at least, a telephone number where I can reach them. I have started to contact some of them (those for which I had a phone number) to find out if they are still interested. For now, I've reached Robert Fournier and Anne Fouillard; both are still interested. I couldn't reach Gunter Mueke at work; if you have his home phone number, I'd appreciate. I've mentioned that we (both NS and the Agency) will meet them in the near future and I will be calling them back to set time and location.

> In the meantime, I have attached the list of questions we use to conduct interviews of panel candidates. If you want to add or suggest some changes, please advise. We will also review the timelines and terms of reference and consult with you on those to finalize them (so we can provide the candidates with an idea of their mandate and the panel review timeline).
