Subject: Some questions from the panel

Debra ,

Just before Christmas the panel met to discuss the remainder of the Revised Project Description. The resulting Information Requests have already been sent to you. In addition, during that meeting we also discussed some broader issues with the result that I have been asked to pass these comments and questions on to you.

1. We are curious about the state of your discussions with Gil Winham regarding his interpretation of the role of NAFTA on the WPQ process? Has he agreed to consult for us? Assuming that he has what has he been sent for comment and what are the timelines you have established for his response?
2. What is the status of the two letters that were to be sent to: DFO regarding our request for permission for a test blast and to the New Brunswick quarry regarding our request for a visit? You will recall that we assumed two letters of refusal would be forthcoming and that they would then be placed into the Public Registry.
3. Can you provide us with a status report on the topic of Social Capital that you were to prepare for the Issues Book?

I think that that is about it.

Bob
