

Petition

TO: Federal Minister of the Environment
 Nova Scotia Minister of Environment and Labour
 Chair – Joint Review Panel

We, the undersigned residents of Digby Neck and the Islands, wish to state that we are in support of the Whites Point Quarry and Marine Terminal. We further wish to state that many of the views expressed by the opponents to this project do not accurately reflect the views of many people who live on Digby Neck and Islands.

Further, we are of the opinion that the jobs that will be created by this project are vital to the economic future of this area given the catastrophic decline in the fishery. We feel that it is time that the exodus of young people from this area is stopped and this can only be achieved by the creation of jobs to keep them here.

Petition

**TO: Federal Minister of the Environment
Nova Scotia Minister of Environment and Labour
Chair – Joint Review Panel**

We, the undersigned residents of Digby Neck and the Islands, wish to state that we are in support of the Whites Point Quarry and Marine Terminal. We further wish to state that many of the views expressed by the opponents to this project do not accurately reflect the views of many people who live on Digby Neck and Islands.

Further, we are of the opinion that the jobs that will be created by this project are vital to the economic future of this area given the catastrophic decline in the fishery. We feel that it is time that the exodus of young people from this area is stopped and this can only be achieved by the creation of jobs to keep them here.
