Call Received Call Made Meeting Other _____

- called to make sure had correct plan - the thought site was by rail from water. I clarified it was 100m

- expressed some concerns re vibration + slope

- I explained that items were in draft to mitigate + require permits if necessary

- I mentioned this was approx twice as far as the blasting at White Cove where Jim + Phil were getting details of blasting plans, etc

had no new concerns + would fax letter this AM
