ENVIRONMENTAL ASSESSMENT DECISION STATEMENT

Belleoram Marine Terminal Project

[Belleoram](#) (NL)

November 22, 2007 - The Honourable John Baird, Minister of the Environment, responsible for the Canadian Environmental Assessment Agency, has reviewed the federal environmental assessment of the Belleoram Marine Terminal Project proposed by Continental Stone Limited.

Having taken into consideration the comprehensive study report and the results of the public comment period pursuant to section 22 of the *Canadian Environmental Assessment Act* (the Act), the Minister is of the opinion that:

- No additional information is necessary and that public concerns raised have been addressed through the comprehensive study;
- The project, taking into account the mitigation measures described in the comprehensive study report, is not likely to cause significant adverse environmental effects; and
- The mitigation measures and follow-up program described in the comprehensive study report are appropriate for the proposed project.

The Minister has referred the project back to the responsible authorities, Transport Canada, Fisheries and Oceans Canada and the Atlantic Canada Opportunities Agency for appropriate action under section 37 of the Act.

The Minister recommends that the responsible authorities ensure the implementation of the mitigation measures described in the comprehensive study report. The Minister also recommends that the responsible authorities implement the follow-up program described in the comprehensive study report, in order to determine the effectiveness of the measures taken to mitigate any adverse environmental effects, and to verify the accuracy of the environmental assessment of the project.
