RE: Navigable Waters Protection Application – Whites Point Quarry Marine Terminal – Addendum 2

As requested, we are providing additional information for the Whites Point Marine Terminal.

1. Drawing 1 has been revised to show the overall width of the three berthing dolphins at plus or minus 140 meters and each dolphin at 6 x 15 meters.
2. Drawing 2 has been revised to show the ship loader fully extended at 121 meters.

I hope this is satisfactory.

Yours truly

Paul G. Buxton, P. Eng.
