**Follow Up Flag:** Follow up  
**Flag Status:** Red

Thanks, Ted for your recent e-mails. I am sure the info will be very helpful as we make our way through the process on this file. just to keep you informed here are a few decisions we have made to date:

- CEAA is triggered by NWP 5(1) and FA 35(2) and possibly FA 32
- The EA track will be CS
- There will be a joint EA process involving a MOU (or agreement letter) between Province and Federal RA's
- The scope will include the marine terminal and the quarry

Ted, are you involved with the Beaver Harbour project by Irving which seems to be the same project type as this one?
