I'm sure they'd prefer to scope it narrowly, but I think the province would have some concerns with that!

I'll see what I can dig up. I am concerned that DFO may want to only scope in the terminal and not the quarry, so we may have put some pressure on them.

By the way, the Brooks Power Project in Alberta is likely to be referred to a panel this week and will be taking up a good portion of my time. I have talked to John McCauley about White's Point and he will take over as HQ lead as soon as the Brooks referral occurs.

Hi Steve,

I was thinking that the Aguathuna Quarry and Cimbec Marine Terminal might be good to look at when scoping Whites Point. I thought you might have ready access to copies of these, or know where to find them. Can you help? I realize DFO was the RA on Cimbec, but thought it still might be quicker to locate at our end.
