Tim should be reminded that he shouldn't be doing this sort of thing.

I had tipped her off that DFO might make a recommendation to refer to panel and that, in such a case, you would be the contact. She had seen Thibault's letter before sending the petition.

Thanks Tim. I also know Lisa from my days at Environment Canada. As this project is now at a review panel, Lisa should contact me and not our regional office.

Steve,

I understand you are looking after Whites Point. In case you haven't yet seen, attached is a letter from a local citizen's group. I know the group's legal counsel, Lisa Mitchell, who copied me on the letter. Unable to access the public registry through DFO, she had called me earlier looking for contacts. I suggested she best speak with Bill or Derek in Hfx or yourself.

Tim
