Address: Tiverton Activity: Quarry

Reason for inspection/observations/directions

- Walked site
- quarry excavation - larger - scales installed
- turn around for trucks -
- looked for possible siltation to harbour - NONE.
- water in ditches appears clear - not at flow
- appears they are still using previously installed road to site.
- 2 trucks + 3 excavators @ site.
- No one around today.
- some erosion on left ditch going up to site ie on road for drive to quarry on side of hill - culvert @ base of hill partially blocked - ditches runoff to field.
