Subject: FW: Information flow to Minister's office

Richard,
Re: flow of information on Digby Quarry. I would be interested in your thoughts on this.

Subject: Information flow to Minister's office

Paul:
The Minister's office is concerned about information flow between the Region and their office with respect to Digby quarry. The Minister's constituency office calls Thomas Wheaton on a regular basis and me from time to time seeking information on the quarry. The Minister's office would like to be informed of these transactions as well on a timely basis.

They suggested that Stephanie Tan of the Minister's office and Craig Peacock be cc'ed also.

Sending e-mail updates in this manner raises an interesting issue. NAB's office should be in the loop on this traffic as it is his office who should have the final Regional sign off on information passing to the Minister.

Would you mind interacting with whomever in NAB's office to see if this can be streamlined so the traffic flow is expedited.
