The Minister's office has requested that, when we are requested to brief, or pass information on to, his constituency office concerning the Digby quarry, we also inform the Minister's office concurrently. As Thomas and I are the only ones at the moment who receive requests from the constituency office we will cc or otherwise inform Stephanie Tan and Greg Peacock ASAP. Boudreau, Rose, and Hood will be cc'd as well for their information. Jim

Jim/Paul:

I concur, that way we are ensuring that the information gets through and there is less chance that something will fall through the cracks.

Cheers

Thomas

Paul: I suggest we adopt Greg's approach, just to accomplish what Ottawa wants. When we brief the Constituency Office we will cc or provide an outline of the information conveyed to them to both Stephanie Tam and Greg. They can do with it what they will. Jim

Hi Jim and Thomas,

This doesn't seem to help us very much. I don't know if we are able to make better use of Greg Peacock as a single point of information distribution. I don't know if this would help or not.

For your consideration,

Paul

I guess this is the best we can do for now. Keep the info coming through us to Greg.

If you brief the constituency office you defato brief the MO. However, nothing is ever easy and info flow is always a problem. I have no problem if you cc Tam and myself. I regularly brief Neil so you need not copy him on these messages. If something is really an issue for Neil & DFO you can indicate it or you can copy Neil directly as well. Seems awkward because it is and it ill not change with this group so we find out what is best for us. Putting me in the loop, especially with the fortnight briefings I am introducing in the new year should serve us well. You carol Ann can have the pleasure of speaking to this item. Does this help?

By copy to Greg Peacock I will ask for his advise on this.

Hi Carol Ann,

Any suggestions? Are there any options for streamlining the info flow from the Area to the Minister's office?

Cheers,

Paul
