To: Tiverton Harbor Authority

Dear Sir or Madam,

I understand that in order to proceed with planned renovation work at the Tiverton Harbor, blasting is planned, for which permission is needed from local property owners.

As the owner of a dwelling located in Tiverton I have no objection and hereby give my permission to the Tiverton Harbor Authority to proceed with blasting at the harbor as needed.

Should further correspondence be needed on this subject, please contact me at the address above, or by telephone at 713.291.4305.

Sincerely,

Percy Sandel

Hi Laurence:

Further to our phone conversation this morning, this will confirm that I have no objection to the rock quarry project over the hill on Orlie Dixons' property behind his house at Tiverton as you described it. . It is my understanding that material from this site will only be used for waterfront/harbour projects at Tiverton and East Ferry wharf. I trust that the construction company is required to have insurance to cover any damage that might occur to anyones' property as a result of the project.

Jack Leeman

**Sent:** Wednesday, March 12, 2003 4:08 AM  
**Subject:** Re: Local quarry

Dear Laurence,

We have been making phone calls to try to establish where the proposed road veers up to go over the hill. Blasting noises are not a concern but we do have a serious concern regarding our well and meadow.

Our well is on Tom's property. (1) If the road veers over the hill before getting above Tom's property, we have no problem. Otherwise, the road COULD stop the water flow down the mountain and leave several of us with dry wells.

(2) Also, we have much wildlife in the meadow behind our house, many pheasants and other ground birds nest there. The nesting itself occurs where the meadow meets the tree line but they feed all the way down to our back lawn. If culverts are placed so that water can run under the road and keep on coming down the hill, it would solve that concern. You must certainly know how seriously we take environmental issues or we would not have given almost 200 acres of oceanfront to the Nature Conservancy. Dot bought a buffer zone next to that property from us several years ago. I assume the blasting does not occur in that buffer zone. Her original property is to the left of the buffer zone which goes from shore to shore.

So, (1) Does the road veer over the hill before Tom's property?

(2) Would the gov't consider culverts to assure the precious commodity of water to continue on down the hill to wells, meadows, etc. If the answer to this important question is YES, and guaranteed, I will immediately send a signed statement with the gate and culvert stipulations added.
