Phil,

I have reviewed the additional information provided in response to my questions. I believe the proponents have reasonably answered my concerns.

Don Bowen

Thank you, Don. I have sent off the material. Your request for information of the seal colony location can be found of the 13th page of the material under Specific Comment # 1. Thank you.

Sorry Phil,

I seem to have misplaced the document. Could you send it again? I have been out of the office a good deal lately and am on the road again tomorrow for a week.

Don

Hi, Don. Additional information that you requested as per your e-mail to Jim Ross (Nov. 29/02) was mailed to you February 4/03 attached to a memo from HMD. I have not , as yet,

received your comments based on this additional information. Your comments are an important component in formulating a letter of advice to the Nova Scotia Department of Environment and Labour, which is required before they can issue an approval for the blasting. Could you please e-mail your comments to me. As you can appreciate, public interest in this project is very high and we want to be as informed about potential impacts as fully as we can be.

Thank you for your response, in advance.
