Phil stopped by this afternoon and indicated that he had talked to each of you re: the above topic. He is now requesting a few words in writing re: probability of occurrence (and probable months) of any diadromous fish in the vicinity of the proposed quarry.

Peter, would you pls provide for salmon; Rod for the rest.

Phil's time line is now apparently tight....he would appreciate something early next week ..26..27th?

Thanks, Larry
