Dave Kern, Paul ~~Wright~~ June 14, 2002
 Bob Balcom, Bob Petrie, Brad Langille, Company Nova Stone

Background:

Nova Stone - the quarry N.S. registered co.

Backing - N.J. funding privately held

- 800 employees, running 25 operations
 in N.J. no gen. funding being sought

concrete block & gravel business

Global Quarry Products at White Point

Representing Nova Stone & Global Products

- building of mine terminal

the quarry determining how
 easily obtainable the rock is

- blastability etc.

- looking to submit a draft

registration doc. - probably a

couple of months away.

Engaged a number of consultants

Work done -

Ruth Newell - Botanical survey

George Euston - Faunal survey

- nesting survey

Charles Walkerd - arch. survey

Dr. Barry Moody - cultural survey, localities

& maybe a burial site

Mike Bulinsky - marine biology -

inverts & plants - video transect

Dr. Paul Brody - marine mammals

- issue with shipping & blasting

(blasting & offshore effects - data from

Newfoundland).

Advice on public consultation

- baseline of salt water, freshwater & soils
for past months

- concern re: blasting & well-water

- blast with minimum charge as far
away from water as possible

pre-blast survey *

Quarry manager - John Wall moving to
area, experienced quarry manager - Claytons
senior

Guidance on pre-blast guidance survey

Monitoring on the site

Undertaking

- Ext. of 300+ hectare area

- main terminal intertidal zone -

August end of

Federal side

- Federal trigger * Nav. water - wharf &
distance of beach

DFO - Stream - HADD

million tonnes / yr.

Main terminal integral part of this
project.

land owned by Americans

Mechanism - CL Group with representation
from Whale Watcher, Lobster Fishermen etc.

Nova
Stone
Pgs 742-
779

Establishing C/C - how to proceed + deal
with issues :-

How to select "Chair"

Could be included in TOR that dealing
"Valerie Bellefontaine" - ^{with large} ^{project} ^{communities}

* - send information * bulletin on
L¹: electronic copies.

- send schedule * Fee bulletin.
^{received already}

* Scope - tidal, intertidal -
Shipping. -1

Alternatives to marine terminal
based on cost + marine terminal

How do we work together on this

Details of operation:

DFO + N.W. Habitat

- Brian Tollymore

Remediation plan - 4th may be part
of "enhancement" of site.

~~also~~
going to send project description

TEC 4th approval

DFO chart for blasting

Using site now for baseline on blasting
impacts.

Another meeting 30 days?
