bruce.hood@gmail.com
SEP 07 - DEC 07

Sep 13

Date

7-12-5 hrs.

Stuart

Mark McCann - Steve called him twice - Mark put him off twice.

- Mark wanted to know what we should say to Agency

- Mark wasn't pushing to do consultation, but are meeting w FNs next Thurs for Federalist pt of view to find out where they sat.

- wanted to know if

Sep 28, 2007

Steve Chapman re: White Point.

- Prior is going to respond quickly to Panel Report.

- Micmas said during hearing they were not adequately consulted.

- DFO is sitting w province + FNs only

Oct 4 - re: federal's impacts.

Steve - Panels not mandated to look at aboriginal rights. Panel won't

* - DFO said we are consulting on FA responsibilities not on the Panel Report

- Agency is trying to standardize publicity on release of report to after COB or before COB.

Page |

Date

- report due ^{suit} Oct 13. Sat but Agency would
prepare to ask panel to see if they could release it
earlier or will wait until Mon AM.

* Committed to sending Steve an e-mail
that we will be consulting relative to
FA responsibilities

OJR,

- weekly update sent to Giviny / David for VBNC + Louise Churchill.

- Chris Calouma - proponent wants to shorten pier + dredge due to cost - currently examining EA options - open panel report, new panel, comp study in other. (begin looking into this consulting w Agency, Province, RAs). Keeping Rich posted.

Rebecca - Rich met w FR Drummond TC, Agency + proponent yesterday. (Giviny met w Embridge yesterday) * Giviny all aware. legal services DFO, TC, Agency looking at consultation strategy - legal services going to present it to us next wk.

A. Rich - talk about this at an upcoming staff mtg.

Whites Point:

- Stuart working closely w Mark. p
- e-mail going to Belton telling them we can't talk about mitigation pending the B/C decision however (course of action decision) because it looks like we are pre-~~approval~~ ^{6/16} approval

- proponent - make sure not going to
fed DFO. Agency! from proponent
for original finding.

should get
concurrence from
Ginny.
Date

- Stuart: reviewing the e-mail by Rose - Marie -
working w Cathy. Mark wants to send e-mail Eric.
Panel report coming out Monday.

Marie Lynn

- Lou - Bloom - briefing note.
- 106 / Walworth - workshop region on NADU consultation
what we need to do - Chris called -
need to complete by early next year.
- auto route 30 - checking w legal 14 - what we need to do.
is confirming we have done enough - TC
lead.

- Keltie - Comp Study being posted - coordinating letter
to Agency - Min EC.

- to get training on preparing briefing material - Trent -
(call NCR courses fall thru January)

Nicola

- QP for bring under Rock Refinery
- overview of NS - EA process.

LSHL

Pat set up in-person briefing for you with him - Chris.
- expect everyone by surprise - see main priority is
Page

cell. 613-296-6808.

Date

Todd Burlingame.

Oct 25 - end of Nov.
- looking at New York.

call Ky on Purchase.
943-0545.

A! fill.

- put on the Agency website summary.

Steve Chapman.

- talk to the Minister in NY Keys office
called Agency yesterday & want to move quickly.

- 22nd of Nov. Prolegislature sit

Prolegislature will likely want to respond
then we will need our Panel Report.

Response to them

all political staffers at the meeting yesterday

- Bruce Young was kicked out of party.

Agency Proponent Paul Burton wrote
to Biden Minister that he was
against the Minister Report.

Proponent paid ~200K to Agency
alone for Panel Admin.

Page

Panel Manager.

Date

Debra Pyles, Andrew McAllister, NRCAW
Steve Chapman, Bruce Young, ~~Caroline~~
Caroline Dunlop, K. Lavin, Roberts - NS.
Kevin LeBlanc - TC.

- Agency asking as spokesperson in interview.
- TC should have text for early next wk.
- Prov Minister -
- Legislature open Sep Nov 22. ~~pro~~ prov hasn't committed to term frame but told other cabinet ministers within 1 mo.
- NS cabinet may have a private members bill
- will be encouraging the prov minister to make decision Nov 15-16.
- prov has to consider other recommendations that Min Del.
- in prov the Min makes a decision but with fed govt need to put it through cabinet.
- cabinet not sitting the week of Remembrance Day.
- Carney - with fed process rules, we would need to make a decision have something in today.
- a lot of focus is on the province because province approach the
- Prov will recommend to Minister
- Bruce Young, Opt 1 go through the panel process - report
- Opt 2 - if project rejected then there is no duties function so if the province is out

and the Min of Environment would ~~not~~
send out a news release.

Opt 2' could be the most logical if the
pressure is out front of feds.

- Ministry quit situation anything could happen.

- making terminal capacity was far greater than
the White Point Dredging would produce.

A - proceed on normal govt response route:
Bruce Young, Conway & Louie Roberts to stay
in touch

REDACTED

* We have an issue moving this quickly because
of 4 mo time limit.

* Communications people are all coordinated.

* Giving providing some comment on Q's & A's, media line.

- Louie's message to take back to Phos - "unlikely
feds can meet Phos timeline".

- TC HQ contact Lee Julianne Malcom.
- bring Bruce Y. will coordinate with Louie next wk. (Phos will
contact Louie early next wk.)

BRUCE HOOD - DFO

~~998-8270~~ Fall

993-4922-2005

- need CEAA track decision to coordinate Fed. - prov.

White Point Quarry

Phil Zarnka - Oct 26, 2005

Hanna Worster - will have Power Point presentation

- conference call today
- my fri w proposal
- uncertainties w Right whale - will probably
be unannounced without test plate -> will
likely mention this to preparator Friday.
- DFO Suemie came to this w/ conclusion

- will likely also be discussing amount of
compensation for HADD on Marine Personnel.
Regoir feels proposal has come up w/ good
compensation plan but don't have a monitoring
page yet.

Phil will send compensation plan - electronic
or fax - page of 3 apparatus page - signing page
for compensation plan.

- and minutes for last few mtgs.

Nov 21 - 2003 -

Date

White Point Quarry

- Mark McLean called last week.

Q - should Science working papers & meeting minutes go on CEPA registry.
(Science paper deals w impacts on Right Whales & marine mammals).

EW to be finalized mid-Dec

* Stuart talked to Cathy Coe & got back to register to say put this on registry.

- ambassador in Belcom will measure the risk that they could to resolve question of whether blasting would impact on whales.

- Mark McLean looking at attaching Utter's to Science report saying info not final - could be amended.

Ann Phelps said there are some SARA pts we might want to have in our authorization.
• send Ann the Science report.
• brief her on the project.

- Draft Right Whale Recovery Strategy.
to be finalized in 1/6 mo.

Page

Bruce Hood DFO
993-4922
Nov 2006 - Mar 15 2007.

Kenogami: R. G. redrafted MC & sent to the Agency. They are talking to their legal.

REDACTED

* all MC on X'driver - Baxter
 - when R. G. gets MC back he will send it to TC - region - there will be an interdepartmental.

Whites Point Jan 07

- had expected proponents changes to EIS by end of Nov.
- in early Dec proponent sent panel an updated project description but didn't address federal comments on EIS
- some changes on project description were based on public comments
- when revised EIS comes in - Panel has 15 days to determine if its acceptable & then public hearing scheduled.
- * Can't predict when panel report will be produced
- could be panel report ~ June.

Whites Point

- panel hearings at earliest in Mar.
- Pet 178 - Came back through SARA because was a Right Whale question.

Kelco

- expecting draft CSR in couple of wks.
- working on compensation & info needs for town & screening.

STP

- expecting announcement this wk.
- joint announcement Fed - Prov on land response.

doing BN to RDG looking for resources to support aboriginal consultation for HMT Oceans.

Pipeline

- Panel finished hearings Nov 25
- don't anticipate conclusions from NEB to couple of months - community is just against the project.
- Fed ~~decision~~

~~Attn~~ ~~George~~ ~~Yost~~ ~~Deputy~~
 Peter M. H. to plan energy project

Date Jan 25, 2006

any landowners that appeal the decision
to allow the pipeline to go thru their property.
(would deal with timing and location of work)
- letter from DFO, EC, DFO went to
15 NB FN groups Upper Xinau
- Stuart sending e-mail to EC re wording
concerns on the invite to consult letter they
sent out

Kelvic - compensation for marginal work +
water supply info

White Point - waiting for paperwork to respond
to us on our comments to their EIS.
- hearings could be Mar - May 07.
- joint letter was sent out to the 13 FNs

Deja Panche -
- hearings early Mar

Mar 7 - 2003 Joey.

Screening

Doc available. will be 5 papers the same as before.

- Screening will include NPP mitigation.

NPP doesn't sign screening to NPP mitigation? Judge says it should be in there. Should we have NPP mitigation in + should NPP sign off?

Q1 - what is implication to future 5(1) triggered EA'S. (New Water doesn't sign screening docs.)

Q2 if CEAA triggered mitigation incorporated into screening should NPP co sign?

Q3 - implication to retroactivity? for other projects MUGE.

- Alex / Kijani - was mtg Mar 5. w Alex, Richard Wexx + Claude. - Joey has a Mar 5 memo from Alex.

Display zoom long. will be 35(2) 32 likelihood

Disconnect between Tom Scutt + New Water. New Water didn't notify Tom Scutt when ad was going to go in paper.

Call 2 - Joey

addressed Q Does public notification need to provide people need to be in both official languages

Cathy G: Q re: public consultation - DFO doesn't feel it consulted at all
- consultation 2 years ago was done by proponent, DFO facilitated
the process. Judge said the proponent's consultation was DFO
consultation - DFO says no - what is consultation under 18.3 +
what is the text.

Q - does screening document need to be bilingual

Q - who pays cost, does Richard have \$ in
budget? for screening doesn't

- have last version of QP note updated.

- ongoing BN's.

- make sure the updates are ready to be stored in the
folders.

- so that anyone can find the information.

- existing filing system stays as is.

- the new updates only has the most recent
version of both ongoing BN + QP.

Updates need to go through approval process when
they are pulled + sent up.

① - Joni Ross - Mon. 902-426 6111

- Digby Lussery - wants to discuss comments.

② - M. Kelly Blair - cell 290-9413

Page 3. 1st bullet - 2nd sentence

- nothing has happened that would create
a mess/fault

- normal process.

- NIMBY.

- transparent.

- haven't made final call.

- New water has already triggered.

Carol Simmons.

Peter Winchester is both as ATC

Thomas.

Traci + Peter have a paragraph of CEAR.

CEAA has to be presented.

- Phil Zamora could answer CEAA questions
if Tim were briefed he could call Jim at
home - 902-445-4886.

- request will be coordinated through the
Agency - Derek MacDonell is file
contact in Halifax.

- Joanne Coakley

Minister letter template - latest BN - Phil
Zamora.

just concentrate on details - Neil will put
in format

- Mark L. Antergine head of Invert Sci.
506-851-6212.

- closure during construction - couldn't
fish scallops - pop increased
- when bridge constructed & zone opened up
- everyone fished there - was good for 1-2 yrs

Phil

Meeting Mar 31 w other EA's + Donovan
- with Digby will likely scope the quarry
w/ with the marine terminal.

Comp Study joint in province
need to be together on the scope.

→ They are open to discussion
tracking similar to Deep Panache.

- Command water effect.

- May not be able to write a COA on the
quarry. 5 (1) implications?
59 F

* - refers to Phil's notes from mtg on e-mail
to update our notes.

LOA has to come after CEAP.

- Andrew Stewart.

- Phil.

- call Renelle Cloutier 990-7159

re - Collective agreement workshop

Apr 17 or May 14 or May 21 or June 10

Phil

- Jim Leadbetter.
- Andrew in Yarmouth.
- talked to Joe.

1:00 overtime. call - 902-426-6111.

Decision not final. Jody & Phil met yesterday. Jody asked same question - due to joint EA. Province has to look at Quaiy so DFO is going to scope same. (- reason wasn't related to groundwater.)

← Cause - there is no CEAA requirement to do this if groundwater an issue - it will be looked at.

issuing an EA or reviewing a planning plan doesn't constitute a power duty or function.

Cathy Lee: ^{dependent}
- if Quaiy linked to wharf - no problem in putting them together.

- Jody - the review - will be limited to fish, birds, aboriginal.

Part 2.

Wigley
- re: proposal of Transition Quaiy complaining that scope of ^{Wigley} Quaiy narrower - Why Quaiy is in EA when it

- Twiston constructing a classic L
breakwater so not just repair + maintenance.

- The quality is a direct result of the
SCT. wish, but isn't dependent on the
SCT. Therefore Jim L - not clear if it
will supply other projects.

- could exclude - the Quarry at Twiston
from the Ed if it isn't just supplying.
Twiston - all permits / approvals separate.
Jim will get word for.

→ Andrew will contact me on Monday.

Global might suddenly say they are supplying
someone else to get off having the quarry
included in the Ed.

- Is it a significant change?

* - A could setup call for noon Monday +
call Laurie both from Market

Equality:

- Tuskett Mining Corp.
Marine landing terminal on
Shut Hwa N.S.
- have entered into compensation
agreement & are entering into final
agreement
- NS Salmon Assoc. is going to utilize the
Tuskett Mine is going to utilize
NS Salmon Assoc. to do compensation
how legally binding the agreement needs
to be.

- Get Laurie to do
- send July the LOC info
- as going to send
- not real urgency end of next week.

NS Salmon Assoc shouldn't enter
into an agreement w Tuskett until
DFO has an compensation

- scope
- Digby - putting query with pharpen
CSR because the two are inextricably
linked also to harmonize w province.
 - prior to harmonization agreement, just
scope to trigger.
 - Twerton not harmonized w province.

opportunity to bring the province back in ^{EA. proca}
→ province wouldn't have done an EA otherwise.

Staff Mtg.

- ① - need to file any sick leave - not doctors + dentist appointment.
- just let Claudette know if sick.
- if sick & plugged into internet - can't say have to submit as sick day.

Performance appraisal.

- will need to do one to get one from Placie.
- if you had more than one supervisor.

② - Apr 29. Richard Wex starting.
Paul will be gone May 12.

③ - Budget 2003 (2002. sal deficits 50K. ?
↓ - 0.1M surplus 40 ?
probably less money due to deficit 10K.
contribution to NB pot on 4M

* Major projects fund is back on the table again
as part of DFO contribution to govt deficit.
- ongoing or new projects that deserve to get money. may change to include screenrigs

Jim Ross - ~~from~~ Apr 23.
Procurer can't come.

— Francine Tardif.

* next week ..

400 people total for J.R.'s
600 - 650 applicants total.
- good chance she will get in
- 25-30% turn down rate for those
accepted.

Jim

we have my
offer - all right
to do so.
↑

Conf Call re: Digby Quarry

Apr 25, 2003.

Jim Leadbetter, Jim Ross, Richard, Mei.

not

- Richard got call from Agency yesterday w/ Phil's letter

- re: MOU + decision on scope of project

- CEA Agency feels this will go to a panel + they
Jim never said the panel would ^{Minister's believed}
to have said public review - meaning consultation

380 at Quarry. ^{No DFO trigger} might essentially have to
decide a ^{DPD} which would require an
authorization 10-12 yrs away - not certain.

Jim - re: MOU - ~~Detail~~ Coulter + Kam Blane were
involved in discussion - ^{Bruce Young told Richard}
never had MOU for CSR. ^{MOU is only for Panel}
Agency thought re: ^{Agency thought re: u...} would reply that
the province co-owns the CEA process - they
don't. Agency has been having problems with
25 an harmonization accord. CEA staff would know this so why did they promote MOU?

not have my
objection
to no 10.

we should scope to terminal. - run trigger.

- if we include the quarry in the
assessment it implies that we are
^{DFO} approving the quarry after the assessment
if it went to panel. EC would have to make
decision on scoping.

- what does Richard tell agency this morning

- Jim still confused about why not scope in terminal
if we look at birds etc

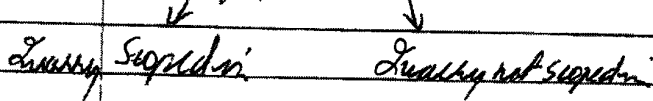

- Richard scope to own trigger re: determining scope of project

- we have NWPA, FEA + S.35 + probably S.32
trigger for maximum terminal but no trigger on
quality i.e. limit scope of project to terminal
- ad question - could project component exit without
DFO approval - if "NO" then its our business +
scope it in. IF "yes" its someone else's
business + don't scope it in
- Jim is going to talk to Phil Monday + get
back to Richard
- Richard is going to talk to Bruce Young today +
explain situation + that scoping not finalized

This is like the Hill where DFO trigger was
S.35 for realignment of a stream but we
scoped within too + were making decision on
effects on birds of removing trees in study corridor
Judge ruled that we had no regulatory authority
over the highway + therefore were abusing the
CEAA process.

- Shouldn't be scoping things in to satisfy public
or other agency pressure.

- Pulled the Thurston quality note as well from
and explains why the scoping was done differently
in Digby + Thurston

D16 B4 EA - HRTS #.

03-HMAX-MAG-000-0000 20

Public view will likely be mod if DFO doesn't scope
in Quarry because they would want us to be
answering it. However, it is easy to explain why
quarry isn't scoped in if we don't have the
legal mandate to scope it in - no to sign.

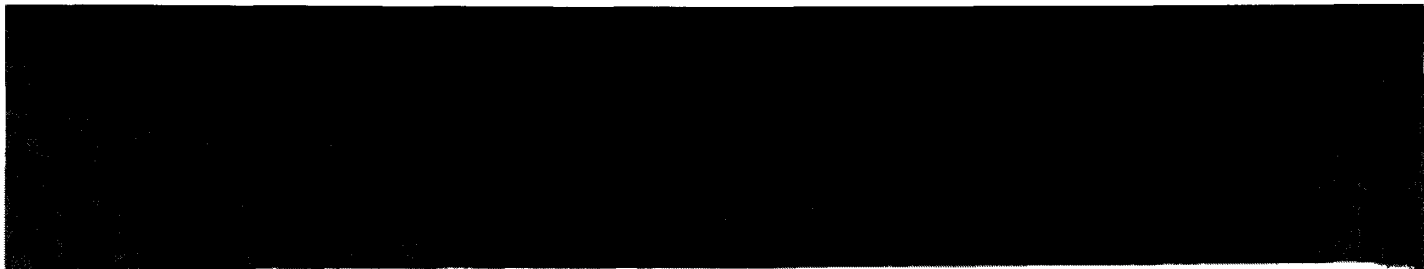

HRTS - Trans Labrador Hwy.

^{provincial}
Apr 24 - Ministerial announcement that further
work is required on 4 component studies and on EIS/CSR.
Also from release from Dept of Works, Services &
Transportation - construction to be delayed till 2004.

Jim 902-426-6111

Chris Daly - Pres of NS.

Steve is concerned that DFO might not
scope in the quarry because it is a hot
file. The Agency
if we scope in the quarry & it goes to
court.

Thomas ^{Phillips} giving out next week to do HADD
determination.

- Richard Seaman - process - 213

- start as case study + refer to panel
then Minister determines scope + Mr DFO is off hook.
in last 1/2 mo have refused 2 prop acts
+ 1 Div

Don't have to give a reason

- memo to Minister in letter attached.

* Richard - we need to sit down w/ the Agency first.

* don't screw up on scope to please province
- we will end up in court &

- shouldn't screw blanket plan &

- they are still going ahead w the
test quarry

Paul What does the Minister want -

Richard - we should talk to Minister's staff.

Every time we scope broadly to
accommodate someone else we get screwed.

We want to get our Minister off this file.

Opt 1

(1) if we stick to Comp study
we need to determine if there is
a trigger for quarry

(2) - Refer to Min of Env as Panel (proposed)

if we do CSR. Richard thinks that Prov will
pussy back on it unless should be the other
way around

- Richard calling Bruce Young to produce.

Same - when projects, EA path.

- Bearfoot sea study - research

Call Phil Zamore:

Phil called - May 15. 03.

3.9 ha quarry very close to shore may
kill small fish through damage to swim
bladders. Had 4 science staff say this.
- don't appear marine mammals will be
affected.

Dingley Quarry

- BN to minister asking for him to indicate if he has a preference for CS (possibly on terminal only), or Panel Review
- region looking for this info
- region returning to quarry in 1-2 weeks determine if fish habitat + potential HADN
- CEAA agency called - saying promise is wanted that DFO may not scope quarry into EA.
- Agency saying this goes against CEAA philosophy & if we do it, they will send a letter of complaint to the Minister.

REDACTED

- HM - NPP & delisting - Mar Reg concerned about workload of CEAA assessment triggered by NWPA 6(4)
- NPP says won't be many projects (they aren't going looking for projects to do 6(4)'s on)
- because HMND is passing more referrals to NPP now & due to length & complexity of 5(1) process, proponents may

Paul will forward info on this

June 10 - next Mtg. Tues 9am.
12, 13 Field Training course

A - Brian Keating - BHP. - find someone who is knowledgeable on BHP + have them call Brian.
- done May 20 - advised Brian to contact Julie Dahl.

- info kits + delivery - DFO - HM prepared + promise didn't want them sent out
Melinda Donovan suggests sending them out w NWP stuff because it is an internal thing - Has NWP application + Habitat stuff.
= Brian can only see an application for marine frontage because promise takes no application for marine work.

Richard said he talked to Stephanie Tan

A. - call Steve Chapman + get ball rolling. what ever scope is

Minister talked to Anderson +

- learning on Sec 2 (B) referred to Panel.

* - don't mention scope.

* - don't send up note.

Richard talked to Bruce Young

Thibault wants process dragged out as long as possible.

*

*

Steve opinion

talked

need to know her.

May 20 - 10am.

* → DFO is leaning to referring Digby Quays Panel.
Under 21(b) - ^{regarding property} ~~staying with~~

called Steve Chapman.

- Steve is going to go to executive mtg that is on night now and see if they are aware of anything.
- at some point we will be asked to send a letter up over to the Agency.

is discussion between Ministers or referral to panel.

He has some sampling of those types of letters that he can send over & will call me this afternoon after he talks to the executive comm.

Steve called back at 4:00.

- This will catch the province off guard.
They may not be happy.

* - Keep it quiet for a few days.

Steve Chapman - turning? should have someone senior call out to the provincial Min or DM telling them this is in the work rather than program staff.

Richard - he is calling Chris Daly to see if they would support Joint Panel.
* Agency would be the ones to admit the prov that we have referred to panel.

REDACTED

- when talking to regisr - say Minister
would like an in depth review of the
entire project. refer to panel.

1st
Richard
Kane

D6's Mtg May 20.03.

- ① - Digby - called Steve Chapman DCLT Agency to advise that DFO is leaning to refusing Digby Quarry to Panel under 21(b).
- He was going to give them executive committee a heads up - (They were meeting at home)
- he is calling back this afternoon - (get feedback on their thoughts about that) to send some sample letters out for referring to panel.
- Province was cracked re: DFO delays on signing re CSR.

- presentation on
- "Protecting Marine Habitat in Atlantic Canada an overview of the Gulf Region".
- Habitat Research on the Continental Shelf of Atlantic Canada.

④ Petitioners - some concerns also surfacing re: DFO + EC in kind falling far short.

bit

John Slagter call tomorrow re: ^{regional} boating course.

- Thurs: Witness course working sp.

at

attendance - Phyrosin.
- one every day. Mtg w Jim Ross +
- end of June test. Phil Zarnora May 21.03

today

of guests Panel.
- still lots of work for Mar Reg - won't make decision on handle registry

also

Bruce de ante + referral letter.

is

likely a Sec 32 trigger - larval fish, Atlantic Salmon, juvenile + adults - NW-Q.

Unique in potential impact on species at risk - tourism, SAR, Northern R. Whale + Blue whale (Occasional).

a

Humpback special concern.
Hudson porpoise threatened
Fin + Monk special concern

to

for

- exotic introductions - Jim Burch
eg green crab, shell fish diseases

into

AP.

Jim - it is the right course of action for Richard to talk w Chris Daly
- CEAA will look after the harmonization

the need to raise ^{S.} 932 will mean it
can't be raised until after the panel review
so company won't likely be able to do the
test quarry

blasting

35.6 ~~38.5~~ M away from the shore at high tide.
low tide will add [~]35 M more

- proposed test blast: 56 holes in 1 sequence
on cliff.

4" hole: 3' deep.
pressure generated.

50% mortality of .5 Kg fish at depth of 11M
@ 63 M.

260 M - 0 mortality.

* even at low tide some mortality.

- Model done by Brian Jollyrose who has lots
of experience.

NR CAN going to be FA. - look at groundwater
effluents on stream in quarry. There could
be a test at \approx 5.35'. (Reviewing geotechnical).

- stream excellent nursery habitat but
adults probably don't stay there.

- stream won't be directly impacted.

civ)

- DFO sole RA. Cont Trans can because no radio tower
- not NPC can because not strong

* will EC will visit that

- Provincial class / assessment is this lowest level.

if looking at salamanders plants etc is scoping broadly - who would look at it DFO?
someone else

- will DFO get saddled to mitigation & monitoring.

117

- wharf. Here is Sec 35 - ^{company applied} yesterday.
- drilling but no blanking in water.
↓ in stream.

* avoid use of uncertainty.

- learning to panel - have contacted agency to advise them of that. No reason to believe they will object.

118

CEAA has talked to DFO already about - if it went to panel - should be referred early in - up front

- lobsters - 100 traps in vicinity.
- lessening migration. (concern about juvenile?)
- mackerel?, tommy cod, gaspereau, smelts.
Salmon, trout.

double
out out

out out

it is likely that a 32 will be required.

- approach:

Opt 1 (A) - could say to company. Here are concerns
can they be mitigated by adding to or
adjusting blasting - possibly avoid 32.

Opt 2 (B) - based on report you gave us will need a 32

unlikely Opt (C) blasting could go on due to socio economic
benefits i.e. over-rides

if they could mitigate -

people concerned - virtually every yard has signs.
- town operators

? could NAFTA override CEPA.

Priority early next week.

Beau do note & letter.

run by the region

- would CEPA notify the proponent.

Jim thinks they should send a note up to Neil
he is going to talk to Carol Ann tomorrow
(Thurs.) concern about Neil blurring it out
- before: i. best approach to talk to Carol Ann
& ask if there should be a briefing ^{note} to Neil
she just tell him

532

Clayton - called May 23 (last day of 20 day
period) to say grading plan off by 1.5M
and he needs floor joist plan. now - before
receiving building permit.

- I had called him a week + 1.5 weeks
ago on Weds to see if there was anything
he needed. I left a message to that effect.

Steve Chap 997-2937

grading off - didn't.
- within a day

Sending letter to proponent tomorrow saying
plans submitted will require a 532

- can submit a request for 532 authorization
- will make lawsuit with us + will
can't come till after CEAA review

or can modify - dead

REDACTED

Allison -

all Participant Manuals were sent out.

- Contact in Winnipeg Diane Wright.

- will be a Techie on call.

- will be a laptop + LCD Here.

- big reference binder will be - contains

the ACT's. Allison has a sample.

- overheads are also here for backup.

May 29. 03. Digby Tuesday Meeting. 2 pm

Richard, Paul B. Phil Z. Bruce.

- Richard - Chris Daly called 2 wks ago -

expressed frustration about scoping + need to

scope same. Richard expressed his concern re: scoping + Regional Minutes.

- Daly said province will likely go to elkhorn in July.

- ^{Daly} Chris has Bob Langdon.

- in meantime Richard talked to Chris again +

Chris responded that province would go for joint panel

- Bruce Young - said - CEAT Agency receptive to panel.

joint panel would be most justifiable project of this size.

Bill Coulter - has same reservation about panel due to proponents' nature.

8W116

REDACT
ED

- conference call tomorrow - Bruce Young, Richard,
Chris Daly.

- at some point in near future - Paul will need to
write a letter to Chris Daly, Bob Langdon re: DFO
funding panel review.

- proposal should be approached by the province.
- proposal should be fairly somewhat relaxed to
find out what a CSR + Panel want that much different
in terms.

- Bruce - send Phil the new note.

also on call - ~~that~~ Paul said science reviewed
blasting plans + said as it is - could cause
mortality of inner Bay of Fundy Salmon + ~~must~~
cause would require Pt. St. 326 approval.

Mfy
May 30 - 03
9:30 - 11 AM

CCFRAM established in 1999 as result of
inter-provincial agreement on fisheries +
aquaculture

- several task groups.

- deputies meet June, Ministers Sept. Branson

- Freshwater Fisheries Task Group. Norm Brampton
Manitoba.

each task group chaired/championed by a
provincial DM.

- Sharon Ashley is co chair of Freshwater Fisheries
Task Grp.

- there is an Oceans Task Group.

Complementation Plan for Freshwater Fishery Strategy - see the document.

- * Key idea at CCFAM workshop - ① that each prov + tech should have a regional fisheries mgmt board
- ② should be integrated planning + watershed planning.

Conf Call - re: Digby Quarry
Chris Daly, Bill Coulter, Bruce Young,
Richard N., Mai

Richard - we are finalizing scope of project.

- Q - whether or not to include the quarry.
- CSR

Agency - would be helpful to have DFO signal province we are leaning in this direction + have them signal back.

- then start thinking about ^{what} the spirit EA/ESA would look like.

→ Refusal letter from DFO under 21(B)

→ could we collectively → draft a letter from DFO
re: gain → to ^{Chris Daly (main contact)} Bob Coulter re: proposal get a response back.

- get really comfortable in wording on both sides before pushing buttons.

Q Bruce Young → Chris - what do you need to harmonize - project specific agreement. (similar to Sabie)

- Chris has no problem working on this now. Pres is serious about it.

- on provision - concept is harmonizing w federal EA - not referring to Ministers.
- CEBA needs to put out referral to panel by 30 days -
- agreement for harmonized EA needs NS Cabinet approval - probably need cabinet approval to consult & possibly, ~~cases~~ draft

3 person chair panel. { - Co-appoint chair: (Fed prov) } Fed + prov will nominate + Agency will appoint.
 { + Fed + prov on appoint a member. }

Share draft of DFO letter w province.

Agency + prov will develop draft of what agreement might look like + work with DFO.

- Prov + feds would like to announce - sooner than later.

- while intent to refer to Panel as part out for public comment - Agency works on Panel -

- Agency has participant funding program - province doesn't
- prov + feds looking to get resources from program - for part of process.

Q. Bill - Chris - when to start looking at what H04 would look like. A couple of models from file further, Dist. * the two will start on this now.

try for draft of letter - from Paul Boudreau - on Monday to Chris Dally
 - (Richard not sure to what to put in wording)

A - Writing re White Point Quarry - Massimo T

Michelle Roberson

1 - in any other regions has anyone done for lake fertilization
proponent wants to do + wants to quit after life of
mine - Michelle says would need to be done in perpetuity.

2 - deferred compensation in Practitioner's Guide - no
time frame - what's reasonable - proponent
wants 25 yrs - Michelle thinks 5 max is

Michelle wants to know what's done nationally

re: Louise - She had questions about the
compensation agreement + wanted to talk to Michelle,
Andree Lockwood said don't talk to company
without a lawyer present.

- Company is going to move fish from reservoir
to a fishless lake + rehabilitate a river or
watershed.

* - Design a national compensation database.
Keywords - all compensation projects across
country.

- AT II brochure - done by NL Region distributed
by province re with fishing + hunting licenses.

① ^{crafting}
Digby Quashy - letter to province re:
testing waters to refer to panel.

- had conference call Fri - w province
& agency - both support idea.

- briefing w ADM + Associate DM Thurs.

②. Prepare to deliver HM101 next week.

③ Working in NW Region re: options being
proposed by Walworth Muni for compensation
re: what's been done elsewhere + whether it meets
intent of our guidelines

- 25% defused

Phil Zamora - June 2, 03

Met w Paul Thursday - sent letter to
proponent re: S. 32 on redesign.

Phil - Phil hasn't heard from proponents
- reviewed content of Friday only re: Digby w
province + agency.

④ - Phil will draft draft of letter + send here

A - Bruce will run by Richard & get both to Phil
- Paul at mtgs & away all week but available by
phone + e-mail so Phil will contact him as needed.

- Regional staff feel that Paul should
draft the letter.

in sec 20.C - 3 conditions for Paul.

Steve Chapman

Feb 13 03

James Gilbert re SEA's.

Feb 13 - 12:00 Paul Called e-mail from Nadein
- 12:40 Paul called re: Bullivan going to Minister's
office.

- Tim Stewart ^{was Director Yarmouth} e-mail.

→ Nadein re Bullivan - sent a
copy to Minister's Office.

re: Global Stone - development for proposal.

- Area Director Yarmouth.

Called Jim Koss - 1:00pm - left message - Jim called back.
Jim

Global Stone is parent of Nova Stone.
nothing has changed - Tim's interpretation of FCR.

Tim says it
thought there
was something
big & new &
panicked

- federal Coordination req went to BJO.
- Jim sent it to Thomas Wheaton to reply - ^{std practice}
- Thomas called to determine if CEIR is required.
- Tim wanted press lines because Jim going
away - Jim wrote press lines for Tom (Tim was worried
because he thought it he would need to be the contact).

Tim sent ^{message} to Nadein Bullivan at Constituting office
to Nadein Bullivan - she sent to Minister's office - Stephen
found out & contacted Paul G.

Tim panicked - didn't know what FCR is.

called Tim

Jim explained nothing new. Agency coordinating FCR's routine - Thomas Wheaton handle a dozen of these a month - Tim didn't talk to Thomas so he didn't know that.

Paul's Cell 3 - 991 - 1280

Jim Ross 902 - 426 - 6111

Jim called me this morning & I re-sent him the e-mail chain on protocol for communicating from area offices to region to HQ. (they copy Stephanie Tan + Corey Peacock). Jim said that Tim either didn't get or forgot about the messaging protocol.

I called & relayed info to Paul. Paul asked me to have Jim Ross call him so I called Jim & relayed the info. Analysis - Paul was likely calling Jim to stress the need to have people follow protocol. Possible to clarify the info on the quarry.

Retreat - Fall 15-18 Probatifulla

- Nat'l Habitat Mgmt Committee
- Richard, S.O.'s Regional Habitat Mgmt.
- let formed should meet 20 yr.

NOA National Ocean Director Committee meet when a decision needs to be made

Regional comment:

Contracting issue - project in greatest public
opportunity in our region.

- was going to leave it to quarry.

- to Paul & Knowledge - no decision yet made it
was discussed. Minister hearsay that it go to panel.
∴ Neil said go to panel.

- need for broader national discussion on quarry
what to do.)

- pull out last BN.

Conf call w. am. Richard & Paul.
- Paul & Jim gone

- no decision before Mar 10 - want July
in place & Jim & Paul back from holidays

Can carry over - 35 days.

don't need to take anything off.

Cathy Coer Feb 20.03.

Feb 20
03

lin

- why is don't need to scope in the quarry
no DFO trigger: if its scoped in get some
other concerns - No harmonization agreement
so scoping doesn't need to be same.

x

top panel

- We need to find out if Minister said.

under

- panel - 3 people - public hearings -
hear from pro, proponent, EAC, concerned
citizens etc. issue report + conclusion.

- ^{DFO} is Transport work - how are they coping.

- scope to over trigger - would be what + what they
need to do to build it.

→ DFO writes a response to report.

GIC (Cabinet to agree to the response)
either way our Minister holds the bag
but its a govt decision.

- anyone can consent FCR's, CEAA,
RA, proponent etc
- probably premature.

Feb 20

if Fed gov has no reg authority over
then quarry is developed:

don't need a reason to bump CSR to
panel.

A - Check to see if DFO is looking at sampling
in the quarry.

- Groundwater? N. 35 (2).
- See 32.

Mar 3. 2003

* Confirm whether NPP + HM will be sitting
down together and discussing the project
together in the same room

ML - 1st ad in Chronicle Herald - next ad in
local paper - residents think it went through
back door.

- constituency staff hadn't seen it. + were getting
calls from public.

- improvement has to advertise in two papers +
Can Gazette.

- local paper Digby Courier.

- 30 days notice on ad.

* See next pages

Right Quarry - Marine Terminal Application

① - Global Quarry Products (Nova Stone) -
submitted Marine Terminal application through
NPP for NUPA 35(1) application. A requirement
of the NUPA review is that application needs to be
advertised in paper - hence ad in Chronicle Herald.

(- NPP + HM not working closely together - there
is a ^{HM-NPP} cross delisting initiative underway.

- Jim Ross - Paul Boudreau away, Joey Crocker -
started in Mauritius currently moving.

③ Wharf relatively small - 200M long (gaining from
shore to 16M depth) On a dozen pile -
loading platform on end: 10 - 20M wide w 6M long end -
- initial regional take - a fairly benign project
on habitat.
- region facing drawings Made (today).

② - Mtg Made w Area + Region HM staff to review the
proposal to do ^{consider} HADD determination + need for
PA 35(2) authorization.

④ - CEAA. Suspending CSR vs Panel Review

⑤ SARA Implications re: endangered Right Whale.

⑥ all future developments reported to Tim Secrett - ^{Area} Dis
RDG + Ines Peacock.

IN THIS CASE - THE CONSTITUENCY OFFICE
DIDN'T KNOW ABOUT THE AD.

** - Gazette published every Saturday.

needs formal request for new note.

- who will have the lead - would expect
sign off by both.

PC - Army views from Ministers that we should be aware of
- not popular
- he well advised
- do everything according to proper process.

Nadine - people thought ad was placed by DFO (was
placed by proponent). People thought DFO placed
ad in Herald because were trying to hide it.

- NPP will check w/ proponent & make sure they put in
local papers. Phone 769-3267.
best paper in area the Star Shopper or Colchester Shopper.
They aren't newspapers. The Act stipulates 2 local
newspapers. Best Local Digby Courier - comes out
once a month every Wednesday. Could see something
in News yesterday.

Digby call us at 1:30 pm.

Ann Phelps re SARA Digby Quarry - Marine Terminal.
Mar 6, 2003.

Canada

Right Quarry

- Revised blanking plan received + Jim R is accelerating it to expiration
- Review for review - comments for Fsi.
- Jim thinks they will want more info.
- CEAA is sent out "Preliminary PCR" + agrees it will likely be CSR.

For an expanded Quarry + Deepwater Peri.

- Issues - Right Whaler, Comets, Humpback Whales.

Critical Area - Intro to Regional Structure

- Oceana reports to RDG not through Science as in some other regions.

3 areas - Area Director Model - (area reports through area Director.)

- Paul Bondman - HQ has provided lots of opportunity for regional input + lots of service
- Apr 1 - new structure in Manitowish

- intent to:

- See heads are BI-03's who voluntarily took on extra responsibility

* Challenge of req - who do they provide service to? Env Groups, Ot G, Aquaculture etc etc
San Cr. Harbour, NWP.

- CEAA Public Registry makes region work under a magnifying glass - creates more work
- consistency - region wants consistency
