Subject: RE: Sechelt Carbonate Project - July 9th Site Tour and July 10th Working Group Meeting Cancelled

Hello all,

I spoke with Karen Christi regarding this information that the proponent is considering considerable changes. She has no more, and is not aware of any further details than this.

She is going to contact the community groups and all appropriate people to cancel the meeting etc. As for the project as a whole we believe we may need to hold off on scoping (completing and PC) as well as completing the work plan as there is the possibility that the changes to the project could influence EA type and scope. The EAO is going to hold off on their progress items as well. Karen mentioned that the proponent said they would contact the EAO in late summer to reschedule meetings and present their approach.

If you have any further questions please let me know.

Thanks,

Mandy Sarfi

Subject: Sechelt Carbonate Project - July 9th Site Tour and July 10th Working Group Meeting Cancelled

Importance: High

To: The Sechelt Carbonate Technical Working Group

The July 9th site tour and July 10th Working Group meeting have been cancelled. Pan Pacific Aggregates is considering some significant changes to the project design, and both the site tour and Working Group meeting will be rescheduled for September.

Regards,

Karen
