

BLACK POINT QUARRY PROJECT

SUMMER 2016 NEWSLETTER

Greetings from the Black Point Quarry Project Team:

Dear Friends,

As you may have heard, on April 26, 2016, both the Canadian Environmental Assessment Agency (CEAA) and Nova Scotia Environment (NSE) approved the Black Point Quarry and Marine Terminal project. We are truly excited about this great news and are very appreciative of the support we have received from the many stakeholders, including the Community Liaison Committee, the Municipality of the District of Guysborough, Guysborough County Inshore Fisherman's Association, local businesses, First Nations, and the people of Nova Scotia. Thank you!

As with these types of projects, there are certain conditions and requirements, along with industrial applications that must be completed and approved prior to project commencement. We continue to meet with regulators to fully understand these requirements as we work through the industrial permitting process.

In this newsletter, we provide an update on our activities, including an introduction to our new CLC member, Rob Carter. In addition, we have updated our project schedule (see side panel) to help you understand the next steps. And as always, if you have any questions or comments, please contact the Black Point Quarry Project Team, or a CLC member.

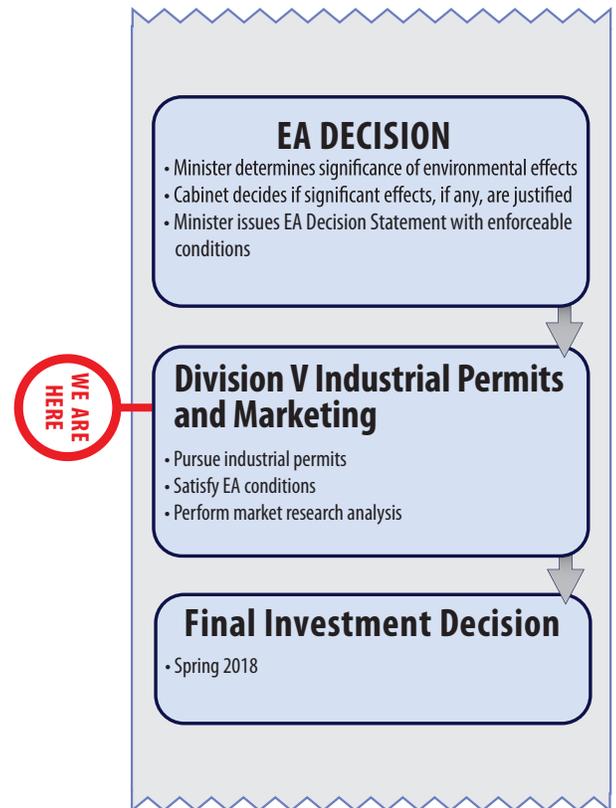

We look forward to seeing to soon!

The Black Point Quarry Project Team

Community Liaison Committee

From the inception of the Black Point Quarry Community Liaison Committee in August 2014, each member has made themselves available to provide input and facilitate open communication between the local community and the project team. The CLC continues to be committed to open dialogue and all members are available to take suggestions, answer questions or convey concerns about the project to the project team.

PROJECT TIMELINE:

CLC April 2016 Reception

BLACK POINT QUARRY PROJECT

SUMMER 2016 NEWSLETTER

WELCOME NEW CLC MEMBER

Welcome to our newest CLC member, Rob Carter. Rob resides in Philips Harbour with his wife Beverley and son Robert. They also own ocean frontage in Half Island Cove (Carters Beach), which has been in their family for 200 years. Rob is an avid photographer and promoter of the shores along Chedabucto Bay. In fact, he created Lost Shores Gallery to promote the area. Rob brings to the CLC a background in engineering and many years experience in pharmaceutical manufacturing.

Welcome Rob!

Community Liaison Committee

BLACK POINT QUARRY COMMUNITY LIAISON COMMITTEE (CLC) MEMBERS

CLC members continue to be available to take suggestions, answer questions or convey concerns about the project to the project team.
