Work Requiring Approval Under a Section of the Navigable Waters Protection Act (NWPA) or National Energy Board Act (NEBA) Included in the Law List Regulations

A work proposed by Global Quarry Products, for a Marine Terminal, will require an approval under Section 5(1) of the NWPA. I have attached details of the planned work for your consideration. Please advise me whether or not Fisheries and Oceans Canada will be a responsible authority under the *Canadian Environmental Assessment Act* due to the requirement for a NWPA approval. If yes, please provide the name and phone number of the Habitat Management Division (HMD) assessor assigned to the file.

Charlet Myra, Navigable Waters Protection Officer, is available to provide advice regarding the effects of this proposal on navigation. She can be reached by telephone at (902) 426-7384 or by facsimile transmission at (902) 426-7585.

Information that is received in relation to concerns associated with this work will be forwarded to HMD for consideration during the environmental assessment (EA) review. In turn, please advise me of any changes or additions to the proposed work resulting from the assessment.

.../2

On completion of the assessment, please send me a copy of the EA Report. Feel free to contact me by telephone at (902) 426-7853 or by facsimile transmission at (902) 426-7585, if yo have any questions or concerns.

Sincerely,

601 Melinda Donovan
