## Project overview

The Deltaport Third Berth Project (DP3) is a Port Metro Vancouver (PMV) and TSI Terminal Systems Inc. (TSI) initiative to expand existing container operations at the Deltaport container terminal at Roberts Bank, in Delta, BC.

DP3 has increased the capacity at Deltaport by up to 600,000 TEUs (twenty-foot equivalent units) by adding a third berth and 20 hectares of container storage facilities to the existing two-berth container terminal.

The third berth at Deltaport is operated by TSI, a private company that operates the existing Deltaport container terminal.

The Project is part of our overall strategy to expand container capacity at

## Hard at Work

Construction workers install the caissons, the large cement dock structures, which create the foundation for the third berth.

Port Metro Vancouver to accommodate consumer and business-driven demand for increased Canadian trade through the west coast of Canada.
